

ABDUL FOR US SENATE

Dear Neighbor,

I know what it's like to be discriminated against because of what I believe in. I want to protect the kind of America where everyone can pray how they choose to pray or choose not to pray at all. I care deeply about the threat of antisemitism to our communities, and I am committed to protecting all Michigan Jews against hatred and injustice.

Those slinging hate want America to be small and divided. I believe that America is big. It's open-minded. It's big-hearted. It includes all of us, regardless of what we believe in, how we pray, regardless of where our families come from, and regardless of who we love or how we identify.

As your Senator, I will always stand up against antisemitism and take the threat of violence against our Jewish community incredibly seriously. Antisemitism is a scourge, and we need to address it in all its forms. It has no place in our communities. Ever. Full stop.

I'm grateful for the opportunity to represent Jewish Michiganders as Michigan's next Senator – fighting for the things we all agree on. I'm committed to guaranteeing healthcare for all, fighting Washington corruption, and reducing costs for Michiganders. I'll strive to make our lives easier by expanding access to housing, childcare, education, and good union jobs. Most importantly, I will always defend the greatest American values of all against the threat of fascism: those of democracy, free speech, and the freedom of belief.

I hope to earn your vote.

Abdul El-Sayed
